AN AWFUL SKIN HUMOR

Covered Head, Neck and Shoulders-Suffered Agony For Twenty-Five Years Until Cuted by Cuticura.

"For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, discharging matter of such offensiveness to sight and smell that I became an object of dread. I consulted the most able doctors far and near, to no avail. Then I got Cuticura, and in a surpisingly short time I was complotely cured. I advise all those suffering from skin humors to get Cuticura and end their misery at once. S. P. Keyes, 149 Congress Street, Boston, Mass."

She had asked permission to use the telephone while her mother transacted her business with the head of the office. A caller was an interested listener to the one-sided conversation until, just as the talk grew interesting, she began to speak in French.

"What was that girl saying?" demanded the caller of the bookkeeper, after the two women had left the office. "You speak French."

"That is just the trouble," was the laughing answer. "I speak French; that girl merely thinks she does. I could not understand one word in

#### FOOD IN SERMONS. Feed the Dominie Right and the Sermons Are Brilliant.

A conscientious, hard-working and eminently successful clergyman writes: "I am glad to bear testimony to the pleasure and increased measure of efficiency and health that have come to me from adopting Grape-Nuts food as one of my articles of diet.

"For several years I was much distressed during the early part of each day by indigestion. My breakfast, usually consisting of oatmeal, milk and eggs, seemed to turn sour and failed to digest. After dinner the headache and other symptoms following the breakfast would wear away, only to re-

turn, however, next morning. "Having beard of Grape-Nuts food, I finally concluded to give it a fair trial. I quit the use of oatmeal and eggs, and made my breakfasts of Grape-Nuts, cream, toast and Postum. The result was surprising in improved health and total absence of the distress that had, for so long a time, followed the morning meal. My digestion became once more satisfactory, the headaches ceased, and the old feeling of energy returned. Since that time, four years ago, I have always had Grape-Nuts food on my breakfast table.

"I was delighted to find also, that whereas before I began to use Grape-Nuts food I was quite nervous and became easily wearied in the work of preparing sermons and in study, a marked improvement in this respect resulted from the change in my diet. I am convinced that Grape-Nuts food produced this result and heiped me to a sturdy condition of mental and physical strength.

"I have known several persons who were formerly troubled as I was, and who have been helped as I have been, by the use of Grape-Nuts food, on my recommendation, among whom may be mentioned the Rev. -, now a missionary to China." Name given by Postum Company, Battle Creek, Mich.

## FRANCE YIELDS TO KAISER PLAN BALKED

Agrees to Germany's Proposition to Have Conference to Discuss Affairs in Morocco.

A Paris special says: An internaional conference for the consideraion of the affairs of Morocco is now practically assured, as the result of the conversation between Premier Rouvier and Prince Radolin, the German ambassador, and attention is now directed to defining the scope of the conference. Details are being rapidly arranged and the officials expect o be able to announce the plans for he conference in the course of four or five days.

This result, after the sovere strain which tested the diplomatic resources of both governments, has the effect of relieving the tension, the officials of the foreign office and the diplomats of the German embassy agreeing that in amicable adjustment is near at and. Although the acceptance of the conference gives a certain measure of success to German diplomacy, yet M. Rouvier emerges from the controversy with the advantages of having brought Germany to define exactly the scope of the conference and so to rid it of the objection of being a mence to French interests.

Although the basis of the conference has not yet been settled, it is understood that the two governments substanially agree on some of the main features involved.

Germany has suspected that France had designs on the sovereignty of Morocco, but the negotiations disclosed that France had not questioned this sovereignty. Similarly, it was disclosed that France had not designed to interrupt the present territorial status quo of Morocco. This appears to have been one of Germany's chief apprehensions as any change in Morocmate French protectorate similar to that over Tunis.

With both governments favorable to the sovereignty of Morocco and to her territorial and political status quo it remains for the conference to adjust | Fill Mr. and Mrs. Carter first. the equality of commercial rights, as Germany desires this assurance from an international conference, instead of through the operation of the Anglo-French agreement. Therefore, the conference is not likely to consider changes in the political status of Morocco, but rather international reforms and commercial privileges.

A Berlin dispatch says: No adequate view of the German feeling over the Moroccan affair can be presented without making note of the general belief in naval circles that Great Britain is seeking an excuse to check the great progress which is making in the German sea armament. This belief is widely expressed among naval officers of all classes. It is their view that Great Britain would be willing that France should suffer on land if Britain thereby was given a chance to destroy the German navy.

As a result of this feeling there is great activity in the German navy, so perfectly ready for defense as now.

#### WALLACE QUITS PANAMA JOB?

Such is Rumor from Colon Anent the Departure of Chief Engineer.

A dispatch from Colon says: It was publicly announced that J. F. Wallace, chief engineer for the canal zone, who sailed for the United States June 16, was going home by order of Secretary Taft, for the purpose of a consultation on important matters prior to the sailing of the secretary for the Philippines, and that he was not likely to return to the isthmus until his annual report had been written and he had secured a rest.

Since the departure of Mr. Wallace, however, it has been said in influential circles that he does not intend to return to the isthmus to resume his position of chief engineer, but that he has gone home to confer with Secretary Taft on the subject of his resignation. The fact that Mr. Wallace went home, accompanied by his wife and two secretaries, seems in some quarters to lend credence to the rumor that he does not intend to re-

#### ALF MOORE SO CONFESSES

Negro, Arrested for Complicity in Murder of Carter Children, Tells Story of Heinous Deed.

The confession of Alf Moore, the negro arrested Saturday for complicity in the Carter assassinations, has added to the excitement in Valdosta. Ga., and the Habira district, over the murders. He has told the full story of the plot from its incipiency, detailing the conversations he alleges to have had with the Rawlings the deal made with him for his participation in the affair and the acts of himself and the Rawlings boys on the night of the tragedy.

He says that Rawlings hired him to come from Ivey's crosstie camp, where he was working, to kill or help kill, the entire Carter family. That when he reached Rawlings' home he was taken to a small vacant house nearby and kept there until the night of the assassination, his meals being carried to him.

He says that Rawlings and his boys joined him at this house on the evening of the tragedy and that Rawlings told them to go and kill Carter and his wife, then the grown daughter and younger children, to throw their bod ies in the house and to set the place co's status quo might involve an ulti- on fire after taking all the money they could find.

After the boy and girl were shot down Carter began firing on the assassin and Moore states that he then became frightened and ran away, making his way back to the crosstie camp where he was arrested.

The officers are working on other important evidence and while a disclosure of the nature of this evidence would tend to defeat the ends of justice and needlessly increase the public feeling over the crimes, they intimate that other important developments are likely to be made in a few days. One or two other arrests will probably be made soon.

None of the prisoners are allowed to see or communicate with any persons except their attorney.

#### WAR PARTY NOT SURRENDERED.

Concerted Action Being Taken to Dissuade Czer from Concluding Peace.

A St. Petersburg special, under date and it has never been so alert or of June 19, is as follows: The war party has by no means surrendered. On the contrary, backed by the military element, is it making a concerted effort to dissuade the emperor from concluding peace. Even with the two armies already clinching members of the war party are filling St. Petersburg and Peterbof with optimistic views and Lieutenant General Linevitch and his lieutenants are reinforcing their arguments with roseate reports of the strategic situation. Many Russian correspondents at the front, evidently inspired from St. Petersburg, are flooding their papers with dispatches in the same strain.

The Novoe Vremya's correspondent, in his zeal against the conclusion of a humiliating peace, points to the hazards for the government in disbanding an army of half a million men without giving them a taste of success, and expresses the fear of dangerous consequences. The same correspondent, however, chronicles the mct that the rank and file are indifferent and concludes:

"If peace can be obtained without the cession of Russian territory, or blood money, then peace by all

#### DEADLY RIOT ON TRAIN.

Negro Excursionists Engage in Fierce Battle and Eleven are Shot and Cut to Death.

Riot, pitched battle, blood and death were all on tap on a negro excursion train that pulled out of Atlanta Saturday night at 8 o'clock on the Southern for Columbus, Ga.

An inventory of the killed and wounded was taken at Griffin, where the train arrived at 11 o'clock, and showed that eleven negroes were shot and cut to death, six were wounded and three of these are thought to have mortal injuries.

The authorities of the Sotuhern railway claimed that the pitched battle began before the excursion train pulled out of the depot in Atlanta, and that one of the negroes found dead when the train pulled into Griffin had been killed in the Atlanta terminal

When Chief of Police Phelps entered the train at Griffin, the sight that met his eyes was, according to his own statement, the most frightful he had ever seen. Four of the dead negroes, whose names could not be learned, were found lying in a heap in the aisle of one of the cars, while the wounded were scattered about, some of them hanging over the seat tops. The body of one dead negro was found on the tender of the engine, indicating that the engagement extended over the length of the en-

Many Jumped from Windows.

The feature of the pitched battle that may turn up the largest results was the fact that only a few negroes were found in the coaches when the train reached Griffin. Most of the negroes aboard jumped through windows while the train was going at top speed, and it is expected that a number of these will be found either dead or seriously injured. Most of the negroes on the train were from Molena and Concord, Ga.

Window glass was found shattered and scattered from one end of the train to the other. Seats were overturned and jerked out and blood and hair ornamented the floors and sides of the cars. The devastation was complete, and the impression of those who entered was that a cyclone had passed through only a few moments
